Tell us how you would like to get involved:
(Please select all that apply)

- **Guest Speaking**
  Provide an opportunity for students to hear about a particular occupation, the preparation and knowledge the occupation requires, as well as other interesting information.

- **Guest Demonstrations**
  Industry members get the opportunity to showcase their expertise, skills, and company through hands-on activities.

- **Authentic Work Projects**
  Real, industry-related projects help students better understand expectations of working in the real-world and generate revenue to support the programs. Contract with our programs to do a specific project.

- **Presentation Evaluations**
  Evaluate student presentations and professional skills. Teachers provide an evaluation rubric and project description to evaluate each student or group of students.

- **Interview and Resume Review**
  Provide an opportunity for students to develop their interview skills and receive feedback on their resumes.

- **Classroom/Shop Volunteer**
  Assist teachers with student projects in the shop or in the classroom on a regular basis. Volunteers have the opportunity to identify future job candidates and provide relevant training.

- **Site Visits**
  Host a group of CTEC students and provide them the opportunity to experience what your company is all about.

- **Job Shadows**
  Industry professionals at all levels introduce students to potential careers. They provide students with a glimpse into real-world work and exposure to the range of career opportunities available to them.

- **Employment Opportunities**
  CTEC is a great place to share job openings available to students ages 16-18. We recommend building a relationship with the program staff so they can help refer qualified students to your job openings.

- **Annual Career Fair**
  This event is strategically designed to introduce you to CTEC students who are seeking apprenticeships, college programs, and employment opportunities. Space is limited, so we encourage you to join our mailing list to be notified when registration goes live.

- **CTEC Industry Advisory Committees (IACs)**
  IAC members partner with CTEC educators in establishing, evaluating, and improving the program, and provide expertise and insight about industry and technological changes.

- **Donate**
  CTEC strives to provide real-world experiences to students, which requires materials. Support CTEC by making monetary contributions or donating materials.
